SKILLS

- Microbial Analysis
- Quality Control
- Water Testing
- Instrument Calibration
- R Programming
- Python Programming

LANGUAGE

- English (IELTS 6.5)
- Kurdish (Native)

ABOUT ME

Motivated and detail-oriented Medical Laboratory Scientist with 3+ years of microbiology and laboratory experience, currently completing a Master's degree. Seeking to apply strong skills in microbial analysis, environmental monitoring, and sterile testing. Adept in cross-team collaboration, and data analysis using R and Python.

WORK EXPERIENCE

Laboratory Assistant

2021-2025

Komar university

- Collected and analyzed clinical and environmental samples with sterile techniques
- Performed daily water testing (WFI, purified, and raw) with strict documentation standards
- Maintained stock and preparation of microbiological media
- Carried out environmental monitoring: settle plates, surface swabs, and air sampling
- Calibrated lab equipment (pH meters, balances) per SOPs
- Contributed to academic research in microbiology and molecular diagnostics

Analytical & Technical Skills

- **Quality Monitoring:** Cleanroom sampling
- **Programming:** R, Python – used for data visualization, statistical analysis, and bioinformatics
- **Tools:** GitHub, MS Excel, GraphPad, SPSS

EDUCATION

Charmo University

2023 - 2025

Master of Medical Microbiology

Komar University Of Science And Technology

2017-2020

Medical Laboratory Science
